

INDEX

303(d) List.....	2-5	EPA Chesapeake Bay Program Office ..	5-43
integrated assessment.....	2-4	EPA Region III	5-43
searchable database.....	5-23	erosion control	
TMDL consistency.....	G-1		
Adaptive Management	4-17	Erosion control	
chlordanne TMDL	2-15	local role.....	3-12
National Academy of Sciences study ..	3-6	Soil Conservation District role.....	3-16
UAA.....	2-3	TMDL consistency.....	4-17
Bacteria		Financial	
algae decomposition.....	2-11	agricultural, services	3-11
animal clubs and associations	3-18	assistance, resources	5-19
implementation plans	5-19	barriers	5-26
local health departments	3-12	bonds	F-4
monitoring.....	5-16	economic and regulatory incentives...	5-33
natural sources	5-4	EPA watershed planning elements a-i .	4-7
sanitarian surveys.....	4-2	implementation planning	4-4
septic systems.....	5-13	planning section	4-11
source tracking (BST).....	J-4	pollution prevention	5-33
TMDL implementation plan	4-8		
UAA.....	2-3		
Biological impairment		Impervious cover	
impervious cover.....	5-11	biological impairment	5-11
non-traditional TMDL	2-15	master planning.....	5-37
number of	2-13	percentages by land use	5-11
stressor identification	J-3	tracking	5-10
Capacity management plan		Implementation plan	
waste water.....	5-22	bacteria.....	5-19
water supply	5-19	pesticides.....	5-21
capital improvement planning.....	G-1	sediment	5-21
Capital improvement planning.....	4-17	Interstate Commission on the Potomac River	
Contacts.....	5-43	Basin	5-43
stakeholders.....	3-14		
TMDL local primary contacts.....	H-1	Land use planning	
Continuing Planning Process (CPP)	2-8	Bay Cabinet letter on land use planning	
Critical Areas		and water quality	3-2
10% Rule.....	iv, 4-5, 4-19	comprehensive plans.....	3-7
DNR Role.....	3-11	geographic scales, full range	5-31
local government role	3-12	imperviousness study	5-37
off-setting pollutant loads	4-19	incentives	3-7
TMDL consistency.....	4-17, G-1	local government role & water quality	1-1
TMDLs, challenging cases.....	4-11	main section	5-24

nutrient cap management strategy	5-5
smart growth	5-28
standards	5-25, 5-27
TMDL implementation	4-17, G-2
TMDL implementation tools	5-18
water quality, tools.....	5-21
Load allocation (NPS).....	2-10
Maryland Association of Counties.....	5-43
Maryland Coastal Bays Program	5-43
Maryland Department of Agriculture	3-11
Maryland Department of Natural Resources	3-10
Maryland Department of Planning.....	3-11
Maryland Department of Environment....	3-9
Maryland Department of Transportation	3-11
Maryland Municipal League	5-44
Monitoring	
adaptive management.....	2-15
and data analysis	2-4
and TMDL evaluation.....	2-7
and tracking progress	3-12
assessing attainment of standards	5-16
atmospheric sources	5-16
bottom sediments	5-16
EPA watershed planning elements a-i.	4-7
fish tissue	2-15
imperviousness studies and land use planning.....	5-37
local government.....	3-12
monitoring wells	5-13
overview.....	2-4
relative to criteria	2-9
responsibilities.....	3-12
source assessment	5-15, J-3
State and local roles	5-15
tracking and assessment.....	5-15
two basic functions	5-15
MS4	
10% retrofit requirement.....	5-10
aggregated WLA	5-43
point source designation by EPA	2-11
regulated stormwater.....	5-5
TMDL implementation plans.....	4-6
TMDL Waste Load Allocations.....	5-7
Natural sources	
bacteria.....	5-4
source assessment	2-10, J-2
tracking	5-4
NOAA	3-15
Non-traditional TMDL	
adaptive management.....	<i>See</i>
Pesticides	
chlordane	2-14
implementation plans	5-21
pH	
sediment phosphorus.....	J-6
Pollution prevention.....	5-33
Septic systems	
bacteria.....	J-3
connections	4-20
drinking water	5-25
load estimation, Bay Program.....	E-8
monitoring.....	5-16
plat approvals	5-34
sparay irrigation as alternative	5-3
tracking	5-13
Source assessment.....	2-10, J-2
in context.....	4-9
monitoring.....	5-15
Stormwater management	5-2
Maryland's Design Manual	4-19
redevelopment.....	4-19
regulation, State	5-10
Stressor identification	J-3
Susquehanna River Basin Commission .	5-44
TMDL	
can be expressed as.....	2-10
challenging cases	4-11
defined.....	2-5
non-traditional.....	2-6, 2-7, 2-10, 2-14
Tributary Strategies.....	3-10
compliment nutrient TMDL implementation	3-13
consistency with TMDLs.....	4-11
DNR role	3-10
nutrient reduction planning	4-18

TMDL implementation	4-5	MDE Water Management Administration	
TMDL implementation planning		roles.....	3-9
documentation.....	4-15	nutrient cap maintenance	5-5
TMDL implementation strategy	4-15	Tier II reviews.....	4-4
tracking	G-3	Water quality standards	
Tri-County Council of Southern Maryland...		antidegradation policy.....	2-2
5-44		background.....	2-1
Tri-County Council of Western Maryland....		interpreting data	2-5
5-44		MDE responsibility.....	3-9
US Fish & Wildlife	3-16	narrative criteria.....	J-1
US Geological Survey.....	3-15	regulations.....	5-23
US Park Service	3-15	Tiers	2-2
USDA NRCS	3-15	use attainability analysis	2-3
Use attainability analysis (UAA)	2-3	Water Quality Standards	
Waste load allocation.....	2-10	TMDL implementation objective	3-6
Water and sewer plan		Wetlands	
Maryland Department of Planning roles...		local government role	3-12
3-11		permitting.....	3-9
		Soil Conservation Districts	3-16
		TMDL consistency.....	4-17, G-3
